e-mail: info@binariolab.it - Partita IVA: 01979180385

Katarzyna was employed as energy efficiency consultant in Binario Lab for the Climate Kic Pioneers Programme.

Her job was useful to us. She handled the credits related to the natural ventilation for the GBC Certification Historic Building of Palazzo Gulinelli project. She has drafted an analysis on the stratigraphic layout of the walls for the regeneration of the building Atlas Concorde and Casinalbo.

We achieved good results with Katarzyna with regard to the energy efficiency of buildings in our restoration projects. We would be glad to cooperate again with her.

regards

Binario Lab

ELENA GONNELLI
